

This week on the course

Monday 8th July

The week began with the mowing of the greens, aprons and the first cut of semi rough, also the mowing of the fairways began. The bunkers were fully raked and the pin positions were changed.

Tuesday 9th July

Today the greens and tees were mown, the fairways were completed and the mowing of the semi rough began. The bunkers were checked and the bins around the course were emptied and the ball washers topped up. It was noted that two of the old sprinklers around the 10th green were no longer working so we replaced them with two new ones. the area around the 1st tee and club house was cut and tidied up.

Wednesday 10th July

The greens were cut, bunkers raked and pin positions were moved ready for the competition. over the wet period some holes had appeared in the path at the 15th, these were topped up using red track. The cutting of the semi rough was continued and the practice area was cut with the tee area being dressed out with sand and grass seed afterwards.

Thursday 11th July

The greens and the aprons were cut, bunkers were checked and the tee markers were moved positions. The semi rough cutting was completed and the cutting of the fairways began ready for the weekend.

Friday 12th July

The greens and the tees were cut, bunkers were fully raked and tee markers were changed. The cutting of the fairways was completed and the 1st cut of semi rough was also done.
